

Easter Activity Sheet

Growing a Carrot

Recommended/Required Materials:

- Soil
- Growing pot
- Carrot seeds
- Gardening shovel
- Gloves
- Watering device (can, hose, etc)

Instructions

1. Start by filling your growing pot with soil and dig a small hole $\frac{1}{4}$ " deep.
2. Next, water the top layer of soil to ensure it is damp (This will help the carrot grow!)
3. Take your carrot seed and place it in the hole, then cover with soil
4. If you are planting more than one, ensure you have 1" between each seed
5. Keep in sunlight and water daily
6. Carrots can be harvested at any size, but we recommend waiting until its bright orange
